

Sand Washing Machine

Brief Introduction

XSD high efficiency sand washing machine is a necessary sand washing product auxiliary equipment for sand making machine, with wheel structure. It can remove stone powder and impurity away from the mixed sands produced by sand making machine, so it can improve the sand quality. XSD sand washer, adopting advanced technology and taking the stone sand industry's practical condition into consideration, is applied for washing, grading and dehydrating in construction site, sandstone factory, hydroelectric station dam, concrete factory, glass plant, and oil well refilling. This series washer with features of high cleaning ratio, reasonable structure, high capacity, lower power consumption and small quantity sand lost during washing. Especially transmission part isolates from water and sand, so it reduces the break-down compared with the traditional sand washer. This product is the best sand washer at home now.

Specifications

Model	XSD2610	XSD2816	XSD3016
Wheel Size (mm)	φ 2600X1000	φ 2800x1600	φ 3000x1600
Max Feed Size (mm)	10	10	10
Capacity(t/h)	20-50	30-60	50-100
Power (Kw)	5.5	11	15
Weight (t)	2.7	5.5	5.8
Overall Dimension(LxWxH)(mm)	3255x1982x2690	3540x3000x2880	3845x3000x3080
